

# EMPOWERING FUTURE ENGINEERS

Sahyadri College of Engineering & Management established in 2007 is recognized by AICTE, UGC, MHRD & MSME Government of India, affiliated to VTU, Government of Karnataka, NAAC accredited with "A" Grade and accredited by Institution of Engineering (India) IEI, certified by ISO and also by DSIR as Scientific and Industrial Research Organization (SIRO). The College offers B.E., MBA, M.Sc. (Engineering), Doctoral and Research Programs. The total staff and student strength at campus is nearly 4000.

## Highlights

- Accredited Grade 'A' by NAAC
- State-of-the art ambience
- Excellence in Academics & Sports
- National Recognition to Student Project
- 3 Industries & 9 Startups on campus offering In-house Internships
- 132+ companies visited for placement
- 671 students got placement offers
- Highest Package ₹24.5 Lakhs p.a.

## Courses Offered

### Bachelor of Engineering - BE

- Computer Science & Engineering
- Electronics & Communication Engineering
- Information Science & Engineering
- Mechanical Engineering
- Civil Engineering

### Master of Business Administration - MBA

- Finance
- Marketing
- Human Resource

# Your journey to the future begins @ SAHYADRI

The Sahyadri College has academic MoUs with various national and international universities and also has collaborations with leading corporates and industries that have given tremendous boost to the students for innovation, incubation, internships, research, projects and hands-on experience.

The Institution encourages students to **“Walk-in with an Idea and Walk-out with the Product”**, by imparting Project Based Learning. The modern infrastructure provides holistic development of students. In-house skill oriented programmes and industry – academia interface enable students to learn state-of-the-art technology with leadership quality.

**ACADEMICS... RESEARCH...  
INNOVATION...  
ENTREPRENEURSHIP...  
ONLY@SAHYADRI**

## **Sahyadri Center for Social Innovation - SCSI:**

It is to motivate the students in the area of social innovations thus providing hands-on experience and practical exposure to solve socially relevant problems. With the problems growing in the society, the engineers should have solutions ready kits to solve those problems and thereby create an ideal environment to evolve.

**Hands-on Experience Lab:** It is built on the lines of **“Make in India”** concept where students are encouraged to pursue their ideas and innovate continuously. In order to bridge the gap between theory and technology, the college has initiated this lab. It is a full-fledged 24X7 technical workspace.

**Sahyadri Student Project Support Scheme - SPSS** is mainly initiated to impart project-based learning from Day One of Engineering. This scheme is driven by the concept of Project to Product on completion of engineering course, with funding support from the college management. Nearly 500-600 Projects under this scheme are being done by our students.

**Sahyadri Incubation Centre:** To further motivate and encourage the students, their innovative ideas, which are obtained by societal visits, are incubated at the incubation center. These are further converted into products and are hand held by the industries that are well established at the campus.

**Sahyadri Science Talent Hunt - SSTH** is an event to motivate the PU (10+2) students towards innovation and creativity with participants of more than 10000 students from across Karnataka, and over 400 student projects funded by the college management from 200 colleges.

## **New Age Incubation Centre @ Sahyadri**

This shall focus on igniting the young minds and provide the necessary infrastructure and mentoring to take the concepts of the students from idea to POC stage and then give them the necessary guidance and provide the platform to become successful entrepreneurs.

## **Industries and Start-ups @ Sahyadri:**

Three industries and nine start-ups have been established at Sahyadri campus by the students and faculty of the institute.
