Student Project Support Scheme - SPSS

This is the first-of-its-kind in any professional technical institution in the country. SPSS provides financial and academic support for student projects in order to improve the quality of technical education. The management has earmarked sufficient funds to support student projects through the SPSS.

Sahyadri Center for Social Innovation - SCSi

The main objective of the Sahyadri Center for Social Innovation (SCSi) is to motivate the students in the area of Social Innovations and Engineering and provide hands on experience and practical exposure to solve socially relevant problems. The college believes that mere academic knowledge is not sufficient to produce world-class engineers and with this outlook, has built up an ecosystem where provisions are made for a Hands-on Experience Lab, Engineering Sense Lab, Innovation Lab and Product Design Lab included in the academic curriculum. These socially innovative practices of engineering shall truly make an impact on the society at large. All these programs are handled by the Centre of Social Innovations and Engineering.
