Technical fest: Pro-Motors, a team of first year engineering students of Sahyadri College of Engineering and Management, Mangaluru, took part in the three-day technical fest - OJASS'17, held at National Institute of Technology, Jamshedpur. Students took part in Tachyon (Line follower) and Shape Shifter. Shape Shifter required participants to build a robot which can traverse in different arenas, pick and place objects based on the problem statement and the team won the Best Technical Innovation Award for their creative work of building the robot. It was the only robot which operated wirelessly. Gautham Nayak, technical trainer, DTlabz, accompanied the team.
