Science award to Sahyadri lecturer

ENS@Mangaluru

ASSISTANT professor of the department of electronics and communication engineering at the local Sahyadri College of Engineering and Management, Dr Steven Lawrence Fernandes, who is currently pursuing his post-doctoral research at the University of Alabama, Birmingham, United States, has been awarded Society for Design and

Dr Steven Lawrence Fernandes

Process Science Award-2017. The award was presented on November 8. The Society for Design and Process Science aims at providing stimulating and interactive environment for scholars, industrialists and practitioners from different in-

ternational communities spanning five continents. It promotes transformative and trans-disciplinary research and engages in active exchange of research ideas and work results involving many industries, governing bodies, educational and research institutes. Dr Fernandes also received the first prize in doctoral symposium organised by the Society. He dedicated the award to all his students at Sahyadri College.
