

Training, Placement & Career Guidance Cell

Motto: To ensure that every student leaves the portal of the college with the desired offer in hand.

Prof. Rashmi Bhandary

Dean-Training
Placement and Career Guidance Cell

In March 2024, we embarked on the exhilarating journey of facilitating placements for the 2024 batch, witnessing enthusiastic student participation in both virtual and physical recruitment settings. We are thrilled to announce that renowned companies such as Anglo Eastern, VTECH Integrated Solutions, Intellipaat, EGDK, Accenture and OmneNEST have selected our students.

Congratulations to all the students who have secured positions in these prestigious organizations; their achievements reflect the dedication and excellence of our student body. Hosting recruitment sessions with 15 distinguished companies in March 2024 strongly reinforces the strength of our strategic industry partnerships and our commitment to providing valuable opportunities for student career development. Additionally, the Mock Interview series, conducted by Final year students on 2nd March 2024, aimed to prepare junior students of the 2025 and 2026 outgoing batches for job interviews.

We remain dedicated to strengthening our strategic industry partnerships, underscoring our steadfast commitment to offering valuable opportunities for our students and fostering their professional development.

Sanko Kogyo Co., Ltd (Zenken-Japan) Hiring

Sanko Kogyo Co., Ltd a Japanese company is hiring engineering students from the 2024 outgoing batch for the position of Electrical Design Engineer. Sanko Kogyo Co., Ltd. specializes in the manufacturing of weighing systems for various industries such as agriculture, construction, and industry. They take pride in being the

nationwide leader in market share for automatic hopper scales for agricultural facilities and batcher scales for ready-mix concrete plants. Their range includes large-scale weighing machines and weighing systems with advanced features, including those for rice and wheat in particular, contributing to automation and labour-saving across different industries.

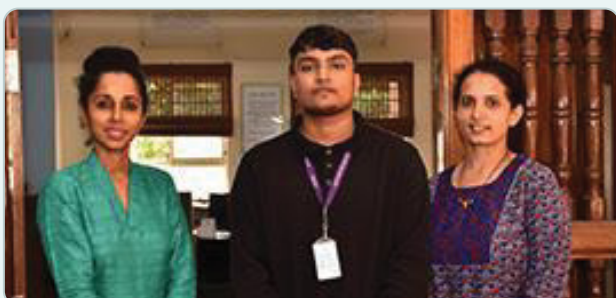

Mock Test Conducted by Final Year Students for Juniors

The Mock Interview series was held on 2nd March, 2024. The event aimed to prepare junior students of the 2025 and 2026 outgoing batches for job interviews. The PPT session provided valuable insights into interview preparation strategies. The session lasted for 30 minutes and was well-received by the attendees. The one-hour aptitude exam was designed as an elimination round and tested students' mathematical and analytical skills. The technical quiz, an elimination round, assessed students' technical knowledge and problem-solving abilities.

The coding round was open to selected students based on their performance in the aptitude exam and technical quiz. Students were given a choice of coding in C++ or Java. The ranks in this round were used to determine order of interview. The event adhered to all prerequisites, including the dress code of clean shave and formal attire. Participants arrived prepared with printed copies of their resumes. Overall, the Mock Interview Series was a success, providing students with a valuable opportunity to enhance their interview skills and prepare for future job opportunities.

Alumni visits Germany for a Project Go-Live

Srusti Shetty, an Information Science & Engineering professional, works as a ServiceNow developer at Kyndryl, an American multinational IT infrastructure service provider spun off from IBM in 2021. Kyndryl is the world's largest IT infrastructure service provider and the fifth largest consulting provider. Recently, Srusti had an on-site opportunity in Germany for a project go-live. The visit included one week of go-live preparation, followed by 20 days of hyper care where Srusti and senior colleagues modified development based on client feedback at the Kelsterbach office. This experience provided valuable client interaction and efficient work understanding, contributing to Srusti's overall learning and growth.

Campus Recruitment by OmneNEST Technologies

OmneNEST Team is visiting Sahyadri on 28th March 2024 to conduct a pool campus drive. This event targets students specializing in Computer Science, Information Science, and Electronics & Communication Engineering from the 2024 outgoing batch for the position of Software Developer and Quality Assurance

Engineer. OmneNEST aims to offer a competitive annual compensation package of INR 3.5 LPA to successful candidates. Beyond monetary benefits, selected students will have the chance to acquire hi-tech skills and thrive in a dynamic, collaborative environment. This recruitment drive promises to be an invaluable opportunity for aspiring candidates to kick-start their careers with OmneNEST. OmneNEST Technologies Pvt Ltd provides cutting edge trading technologies for securities markets. All the tools they need to perform key trading functions, including order management, sophisticated risk management, automated and algorithmic trading, direct market access, smart order routing, and more – on a single platform. NEST, their flagship product, is the market-leading trading platform for securities markets in India. NEST offers advanced tools, robust analytics, and seamless connectivity, empowering sell side institutions to deliver exceptional services to their clients.

TCS National Qualifier Test (TCS NQT) - Campus Hiring for the 2024 Batch

TCS is currently hiring Computer Science, Information Science, Electronics & Communication and Mechanical engineering students from the 2024 graduating batch through the TCS National Qualifier Test (TCS NQT). This test follows an Integrated Test Pattern for Prime, Digital, and Ninja fresher hiring at TCS. Candidates need to appear for a single test, and based on their performance, they will qualify for Prime, Digital, or Ninja interviews. Tata Consultancy Services (TCS) is one of the largest multinational IT services and consulting companies

headquartered in Mumbai, India. It is part of the Tata Group, one of India's largest and oldest conglomerates. TCS provides a wide range of IT services, consulting, and business solutions to clients in various industries around the world.

N5 Level Japanese Language Training for Students

A total of 44 students from all branches and years (1st, 2nd, and 3rd) are participating in the online Japanese Language Training, which commenced on March 22, 2024. Classes, organized by Zenken Corporation, are scheduled twice a week, specifically on Wednesdays and Fridays, providing a pathway to career opportunities in Japan. The N5 Level Japanese Language Training program focuses on foundational language skills, covering grammar, vocabulary, reading, writing, and speaking. It prepares students for basic

interactions in Japanese and provides cultural orientation for integration into Japanese society and workplaces. Upon completion, students can pursue job opportunities in Japan, especially in industries valuing bilingual proficiency like tourism, hospitality, education, IT, and manufacturing.
