RECRUITED BY

Everi India is hiring Engineers for the position of Trainee. CTC offered is INR 6 LPA. Everi was formed through the merger of two companies that served the casino industry for decades Global Cash Access, Inc. (GCA) and Multimedia Games, Inc. (MGAM). Their customers receive a suite of financial services tools that enables secure transactions, streamlines credit and debit card processing, and helps protect against money-laundering threats. No single supplier in the gaming industry processes more cash access transactions than Everi, over $30 billion from almost 115 million transactions. Global Cash Access expanded into the slot machine business by purchasing Texas-based slot maker Multimedia Games for $1.2 billion in December 2014. The company changed its name to Everi Holdings in August 2015, to reflect its broader business model. Everi India is certified as a "Great Place to Work" for the period 2021-2022".

RECRUITED BY **BIDDANO**

Ullas D from the Dept. of Information Science & Engineering is recruited by Biddano for the position of Software Developer.

Established in 2016, Biddano was launched by Talha Shaikh and Ashok Yadav to bring down the huge walls that separate the needful from the needy. For a country like India, affordability and availability of medicines are the two biggest challenges encountered by the population. This affects the overall health and longevity of the people. Biddano is the concrete that is filling the cracks of the healthcare ecosystem. The track of just-in-time procurement and receiving quick on-time deliveries was very crooked and Biddano found a very effective and efficient solution for this. It is a B2B healthcare supply chain platform providing faster and reliable deliveries to pharmacies and hospitals.

HIRING **RINAC INDIA LIMITED**

Rinac is hiring Mechanical Engineers for the position of Graduate Engineer Trainee. CTC during Training/Probation period is INR 3 LPA.

Rinac India Limited is an integrated engineering solutions company more than engineering end-to-end solutions for the cold chain and modular construction industries. As a result, frontrunners in several industries come to Rinac for total solutions in the cold chain and construction infrastructure. At Rinac, no requirement is too difficult; no challenge too complicated. They believe that each customer needs a solution, unique to his need, environment, and aspirations

HIRING **TraceX TECHNOLOGIES**

Tracex is hiring Engineers for the position of Software Development Engineer role. CTC offered is INR 3.5 LPA.

TraceX Technologies is an agri tech start-up based out of Bangalore. TraceX' s flagship tech platform leverages the power of Blockchain to digitize the food and agriculture eco system to make the supply chain clean, credible and traceable. TraceX's SaaS platform connects multiple participants across the supply chain and help them securely exchange verifiable and auditable data leading to mutual trust, accountability and transparency amongst the participating actors. The overall solution consists of a farm management system (multilingual offline enabled mobile app), a web application for post-harvest management & supply chain collaboration, and traceability on the blockchain).
