Towards a Cashless Economy

RBI along with National Payments Corporation of India launched the Unified Payment Interface (UPI) with the objective of proactively encouraging electronic payment systems for ushering in a cashless society in India.

16MBAFM301

The record of cashless transactions in our country is very dismal. At present it stands at 6 transactions/person/year which is partly due to the fact that out of the 10 million plus retailers in India, hardly 1.1 million have card payment acceptance.

Cashless economy is required to make transactions more convenient for the layman rather than carrying bulk cash. Reducing the economy's dependence on cash and shifting to electronic fund transfers would result in betterment of the country.

Questions :

- a. What are the different mediums present in the digital transactions? (04 Marks)
- b. What are the various threats of online fund transfer? (04 Marks)
- c. What are the safety measures one has to take to avoid cyber crimes? (04 Marks)
- d. What are the advantages of Electronic fund transfers? (04 Marks)
