**8 CASE STUDY:**

iD Fresh Food, India's largest Fresh Food Brand, announced the launch of its much awaited iD Bread. Claiming to be India's first affordable clean label bread, starting with Bengaluru, the brand-new products in the category are iD sandwich which bread and iD wheat sliced bread. The company claims they are free of acidity regulators, flour treatment agents, antioxidants, emulsifiers or class II preservatives. iD bread is priced at Rs.50 and Rs.55 (for 400 gm) and comes with a shelf life of five to six days. PC Musthafa, CEO and Co-founder of iD Fresh Food, said "In iD Bread, we have used traditional techniques, starting from specially ground flour, all-natural fermentation, traditionally baked, no chemicals or additives. These are the biggest differentiators when compared to any other similar products in the market is there are absolutely no synthetic chemicals in the mix".

**Questions:**

- a. Presuming you are working for a marketing research firm, what type of research you would conduct to analyze the consumption pattern of bread among South Indians. (10 Marks)
- b. Explain how you would implement the type of research you have recommended. (10 Marks)
