CASE STUDY:

Hydraulics Ltd manufactures and sells ladders that are used by construction firms. The products are sold directly to independent retailers in United States. The company risk manager knows that the company could be sued if a ladder is defective and someone is injured. Because the cost of products liability insurance has increased, the risk manager is considering other techniques to treat the company's loss exposures.

 - a. Describe the steps in Risk Management Process. (08 Marks)
 - b. For each of following risk management techniques, describe a specific action using that technique that may be helpful in dealing with company's products liability exposure;
 - i) Avoidance ii) Loss prevention
 - iii) Loss reduction iv) Non-insurance transfers(08 Marks)
