$\square$ 18CVL37
Third Semester B.E Degree Examination, July/August 2021 (CIVIL ENGINEERING)

## COMPUTER AIDED BUILDING PLANNING AND DRAWING

Time: 3 Hours

## NOTE:

1. Answer any $\boldsymbol{T W O}$ full questions from PART A and any $\boldsymbol{O N E}$ full question from PART B.
2. Assume any missing data suitably.

## PART A

Q1. Draw the cross section of the peripheral feed circular sedimentation tank mechanical Sludge Removal equipment for the given data.
Diameter of the $\operatorname{tank}=17.5 \mathrm{~m}$ Depth of the $\operatorname{tank}=3.0 \mathrm{~m}$ RCC wall \& slab thickness $=200 \mathrm{~mm}$
Diameter of influent pipe, effluent pipe and sludge pipe $\Rightarrow 200 \mathrm{~mm}$. Bed slope $=8 \%$ Thickness of RCC Baffle slab $=40 \mathrm{~mm}$
(25 Marks)
Q2. Draw a layout plan of rainwater harvesting and recharging system for a ( $9 \times 12$ ) m area residential building leaving setback of 1.20 m on all four sides as per bye laws. Show a cross section details for recharging pit.
(25 Marks)
Q3. A One way slab for a hall of internal dimension $7.5 \mathrm{~m} \times 11.8 \mathrm{~m}$ has the following details:
a. Thickness of slab $=150 \mathrm{~mm}$
b. Wall thickness $=230 \mathrm{~mm}$
c. Main steel along short span $=10 \mathrm{~mm} \# @ 100 \mathrm{~mm} \mathrm{c} / \mathrm{c}$
d. Distribution steel $=8 \mathrm{~mm} \# @ 150 \mathrm{~mm}$ c/c

Draw to suitable scale the following:

1. Plan showing the reinforcement details
2. Cross section of slab @ mid span along short span
3. Cross section of slab @ mid span along long span
(25 Marks)
Q4. Draw plan and sectional elevation of RCC dog legged staircase for an office building which measures $3 \mathrm{~m} \times 6.5 \mathrm{~m}$. The vertical distance between the floor is 3.6 m (including landing). Thickness of the floor slab is 150 mm . Provide steps with tread of 300 mm and rise of 150 mm . Thickness of waist slab and landing slab is 150 mm . Width of stair is 1.5 m . Reinforcement details: main steel: $12 \phi$ @ $135 \mathrm{c} / \mathrm{c}$ spacing and distribution: $8 \phi$ @ $250 \mathrm{c} / \mathrm{c}$ spacing. (25 Marks)

## PART B

Q5. The line diagram of a residential building is given in FigQ5. Draw to scale the following:
a. Electrical Services
b. Plumbing and Sanitary Services

Q6. The line diagram of a Office building is given in FigQ6. Draw to scale the following:
a. Plan at sill.
b. Front Elevation,
c. Section along AA.
d. Schedule of openings.
