

## Seventh Semester B.E. Degree Examination, July/August 2021 Design of RCC and Steel Structures

Time: 3 hrs .

## Note: 1. Answer any TWO full questions. <br> 2.Use of IS456:2000, SP(16), IS800:2007, Steel tables are permitted.

1 Design a portal frame for an effective span of 8 m and effective height of 4 m . The portal frames are spaced at $3.5 \mathrm{~m} \mathrm{c} / \mathrm{c}$. The live load on the roof is $2 \mathrm{kN} / \mathrm{m}^{2}$. SBC of soil is $150 \mathrm{kN} / \mathrm{m}^{2}$. Take M20 grade of concrete and $\mathrm{Fe}-415$ steel. Assume the frame is fixed. Sketch the reinforcement details. Design the beam, column and footing only.
(40 Marks)

2 Design a Cantilever Retaining Wall for a height of 4 m above ground level. Density of earth is $18 \mathrm{kN} / \mathrm{m}^{3}$. Angle of internal friction/repose is $30^{\circ}$. Take SBC as $200 \mathrm{kN} / \mathrm{m}^{2}$. Coefficient of friction between soil and concrete is 0.5 . Use M20 grade concrete and Fe-415 steel. Sketch the reinforcement details.
(40 Marks)
3 Design a simply supported gantry girder manually operated with following data:
i) Span of crane $=20 \mathrm{~m}$
ii) Span of gantry $=7 \mathrm{~m}$
iii) Weight of crane excluding crab $=220 \mathrm{kN}$
iv) Capacity of crane $=250 \mathrm{kN}$
v) Weight of crab $=60 \mathrm{kN}$
vi) Wheel base distance $=3.5 \mathrm{~m}$
vii) Minimum hook approach $=1.1 \mathrm{~m}$
viii) Height of Rail $=60 \mathrm{~mm}$

Draw the C/S and L/S of the gantry.

4 Design a Roof truss, for the forces given in the table. Design the Anchor bolt for an uplift force of 15 kN and bearing plate for reaction of 50 kN . Design all the critical components of truss. [Refer Fig.Q4]

Fig.Q4

| Sl.No. | Member | Force (kN) in member | Nature of Force | Length of member ' m ' |
| :---: | :---: | :---: | :---: | :---: |
| 1 | AC, BE | 80 | Compression | 3.46 |
| 2 | CD, DE | 70 | Compression | 3.46 |
| 3 | AF, BG | 70 | Tension | 4 |
| 4 | FG | 50 | Tension | 4 |
| 5 | DF, DG | 24 | Tension | 4 |
| 6 | CF, EF | 24 | Compression | 2 |

Draw the Elevation of Roof truss showing detail of Angles and connection.
