# Fourth Semester B.E. Degree Examination, Dec.2017/Jan.2018 **Software Engineering**

Time: 3 hrs. Max. Marks: 80

Note: Answer any FIVE full questions, choosing one full question from each module.

## Module-1

- 1 What is software? List the fundamental software engineering activities. Mention and explain the key challenges or the general issues facing software engineering. (05 Marks)
  - List and explain any five software engineering code of ethics. (05 Marks)
  - Write block diagram for illustrating incremental development model. State at least two benefits and the problems in incremental development. (06 Marks)

#### OR

- Explain functional, non-functional and domain requirements with at least one example for 2 a. (03 Marks)
  - Write the structure of the requirement document as suggested by IEEE standards. b.

#### (10 Marks)

c. List out all the stake-holders in Mental Health Cone Patient Management System (MHC-PMS). Write a note on interviewing stake-holders for requirements discovery. (03 Marks)

## Module-2

- Write short notes on: 3
  - Context models with context diagram for MHC-PMS.

(06 Marks) (05 Marks)

Interaction models Behavioral models

(05 Marks)

#### ÖR

Write a neat block diagram and explain the phases of Rational Unified Process (RUP).

(06 Marks)

b. List out all the activities in an object oriented design process.

(02 Marks)

What is a sequence model? Write the diagram for sequence model of operations in collecting data from a weather station and explain. (08 Marks)

#### Module-3

- 5 State and explain development testing and its three levels - unit testing, component testing and system testing. (04 Marks)
  - b. List out all the guidelines for testing.

(04 Marks)

Explain test-driven development (TDD), with a block diagram. Explain TDD activities and benefits of TDD. (08 Marks)

#### OR

- With appropriate block diagram, explain the software evolution process. (06 Marks)
  - Define "program evolution dynamics". Discuss Lehman laws for program evolution dynamics. (10 Marks)

### Module-4

- 7 Explain software pricing. List and briefly explain the factors affecting software pricing. (06 Marks) (10 Marks)
  - List and explain various COCOMO cost estimation models. b.

- OR List out the questions to be answered by the quality management team to divide whether or 8 not the software is fit for its intended purpose. (06 Marks)
  - Explain the various inspection checklists for software inspection process. (06 Marks)
  - What are product metrics? Explain its two classes of metrics.

## (04 Marks)

## Module-5

- 9 Draw the block diagram and explain the process of prototype development. What are the benefits of a prototype? Write briefly about throw away prototypes. (10 Marks)
  - List and explain any six extreme programming practices.

## (06 Marks)

## OR

- a. List all the four key features of testing in XP. 10 (02 Marks)
  - What is pair programming? List the advantages of pair programming. (04 Marks)
  - c. Explain SCRUM. Draw and explain block diagram for the SCRUM process. List all the key characteristics of this process. Mention the advantages of SCRUM. (10 Marks)
